This publication reports statistics in conjunction with the Pennsylvania Tax Compendium and Monthly Revenue Report. Most data relate to the fiscal year ending June 30, 2019, although some tables provide historical data for comparison purposes.

Unusual revenue collection patterns and numerous other effects discernible in the tables and graphs are often the result of significant tax legislation. Please consult the Pennsylvania Tax Compendium for specific tax changes.

Other reports and publications available from the Bureau of Research include the Pennsylvania Tax Compendium, Personal Income Tax Statistics, Property Tax/Rent Rebate Program Statistical Reports, and the Monthly Revenue Report. These publications are available on the Department's website.

TAX RATE

1995 TO PRESENT 9.99%

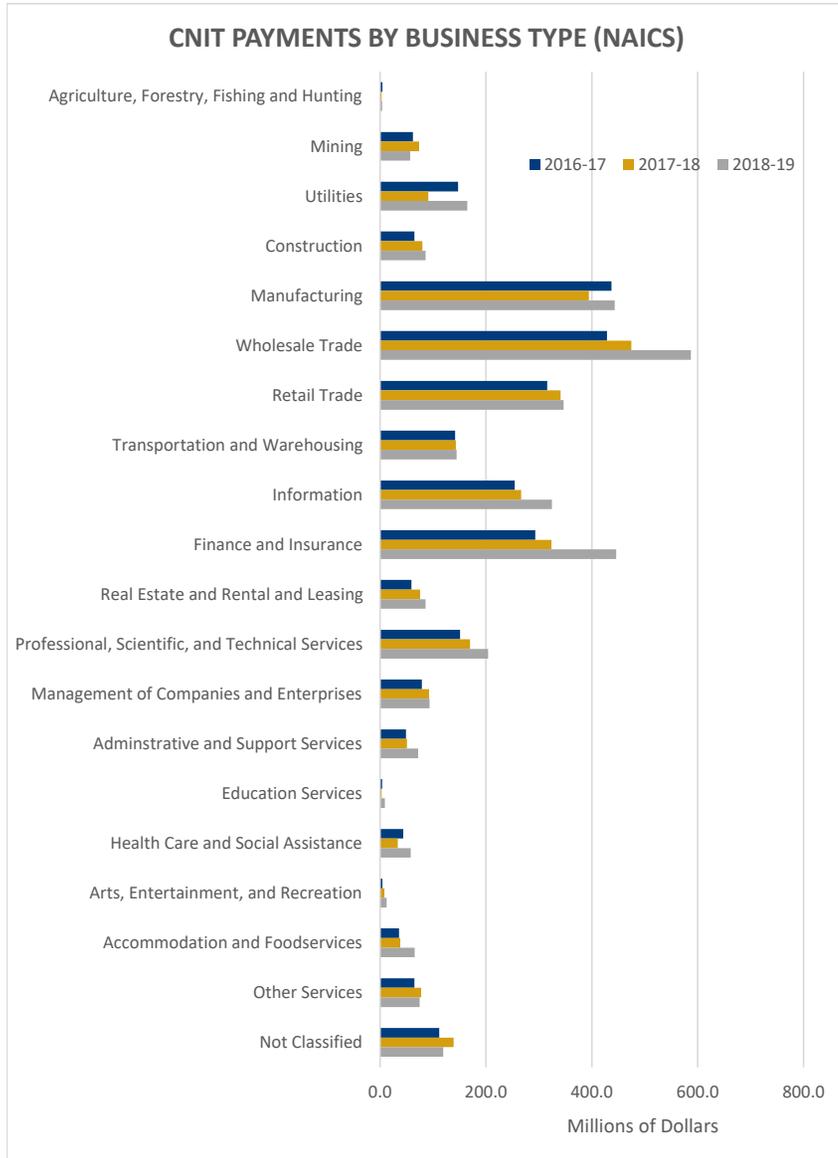

NOTES

The tax is paid on an estimated tax payment system. Under this system, prepayments are considered deposits as opposed to tentative liabilities. Cumulative prepayments must exceed 90 percent of reported annual liability, or 100 percent of the liability two years prior subject to the current rate and, after 1990, the current tax base definition. The adequacy of these payments is judged retrospectively based on the final return. Quarterly payments are due on the 15th day of the 3rd, 6th, 9th, and 12th months of the tax year. Final reports and payments are due the 15th day of the fifth month after the close of the taxable year. Extensions are available for filing annual reports, but not for remitting payments.

Details may not add to totals due to rounding.

Also included above are amounts for the 3% premiums tax on policies written with surplus lines insurers or other non-admitted insurers and a 5% underwriting profits tax on marine insurers. The tax rates have not changed within the reported periods.

Collections represent only those payments deposited into the General Fund. Taxes paid by foreign casualty companies are deposited in the Municipal Pension Aid Fund, and taxes paid by foreign fire companies are deposited in the Fire Insurance Tax Fund.

INSURANCE PREMIUMS TAX

CASH COLLECTIONS BY SOURCE (\$M)

NOTES

The amounts above are allocated based on how an insurance company originally registered with the Pennsylvania Insurance Department. To the extent that some companies are classified as one type of insurer but are licensed to sell multiple types of insurance, the amounts may include taxes on other insurance types.

The domestic casualty and domestic fire amounts are reduced by transfers to the Municipal Pension Aid Fund and the Fire Insurance Tax Fund, respectively, for the use of certain restricted credits by foreign casualty and foreign fire insurers.

NOTES

The bank and trust company shares tax (BST) is imposed on every bank and trust company with capital stock that conducts business in Pennsylvania. The mutual thrift institutions tax (MTIT) applies to the net earnings or income received or accrued from all sources during the tax year.

Act 52-2013 adjusted how taxable shares are apportioned for BST effective January 1, 2014. It is based solely on receipts. The act also expanded nexus by using a more customer-based definition of an institution. Act 84-2016 provides a phased-in deduction for Edge Act corporation equity, beginning January 1, 2018.

IMPOSITION OF TAX

The distribution of liquor is a state enterprise under the auspices of the Pennsylvania Liquor Control Board (LCB). All liquors sold by the LCB are subject to this 18 percent tax, which is calculated on the price paid by the consumer including mark-up, handling charge, and federal tax. The first sale of liquor also is subject to the sales and use tax at the time of purchase.

The profits of Pennsylvania liquor stores are transferred by LCB to the General Fund. The amount is annually determined by the LCB, subject to the approval of the Governor.

NOTES

Under current law, the eligibility income limits for 100 percent tax forgiveness are \$6,500 for single claimants and \$13,000 for married claimants with no dependents. The eligibility income limits increase by \$9,500 for each dependent. Partial tax forgiveness is available for claimants with income greater than the 100 percent limit. Tax forgiveness is reduced in 10 percent increments at each phase-out amount. For example, a single filer with one dependent would have a 100 percent income limit of \$16,000. If the filer's income is between \$16,001 and \$16,250, the filer would receive 90 percent forgiveness.

* For a single filer in 1998, the exemption for the first dependent was \$6,500.
