INTRODUCTION

AUTHORIZATION

Act 7 of 1997 created the Pennsylvania Research & Development (R&D) tax credit. The R&D tax credit provision became Article XVII-B of the Tax Reform Code of 1971 (TRC). The intent of the R&D tax credit was to encourage taxpayers to increase R&D expenditures within the Commonwealth in order to enhance economic growth. The terms and concepts used in the calculation of the Commonwealth's R&D tax credit are based on the federal government's R&D tax credit definitions for qualified research expenses.

Act 7 of 1997 authorized the Department of Revenue (Department) to approve up to \$15 million in total tax credits per fiscal year. \$3 million of the \$15 million was set aside for "small businesses," which are defined as a "for-profit corporation, limited liability company, partnership or proprietorship with net book value of assets totaling...less than five million dollars (\$5,000,000)."

APPLICATION

Taxpayers must submit an application to the Department by September 15th to apply for the R&D tax credit. The credit is for qualified Pennsylvania research expenditures made in the taxable year ending in the prior calendar year. The Department has until December 15th to notify taxpayers of their approved tax credit amount.

TAX CREDIT CAP

The current cap of \$55 million, of which \$11 million is set aside for "small" businesses, has been in effect since December 2011. For a history of changes in the cap, see the Legislative Changes page.

TAX CREDIT CALCULATION

The tax credit is calculated using the increase over the taxpayer's base year research expenses for qualified R&D conducted within Pennsylvania. For "not small" businesses, the tentative credit is equal to 10% of the increase in expenses. Since Act 116 of 2006, the tentative credit for "small" businesses is 20% of the increase in expenses.

TAX TYPES

The R&D tax credit may be claimed against the following taxes: the Capital Stock and Franchise Tax (CSFT), the Corporate Net Income Tax (CNIT), and the Personal Income Tax (PIT).

SALE OR ASSIGNMENT

Tax credits awarded in 2003 and later may be sold or assigned. In order to sell an unused credit, the taxpayer must file an application with DCED. The application identifies the seller and the R&D tax credit that it intends to sell, along with the buyer and the amount for which the credit is being sold or assigned. (See Legislative Changes page for more information.)

LEGISLATIVE CHANGES

TAX CREDIT CAP LEGISLATION

| LEGISLATION | AWARD YEARS | TOTAL CREDIT CAP | SMALL BUSINESS SET ASIDE |
|-----------------|--------------|------------------|--------------------------|
| ACT 7 OF 1997 | 1997 - 2003 | \$15.0 Million | \$3.0 Million |
| ACT 46 OF 2003 | 2004 - 2005 | \$30.0 Million | \$6.0 Million |
| ACT 116 OF 2006 | 2006 - 2008 | \$40.0 Million | \$8.0 Million |
| ACT 48 OF 2009 | 2009 | \$20.0 Million | \$4.0 Million |
| ACT 48 OF 2009 | 2010 | \$18.0 Million | \$3.6 Million |
| ACT 26 OF 2011 | 2011 FORWARD | \$55.0 Million | \$11.0 Million |

OTHER LEGISLATIVE CHANGES

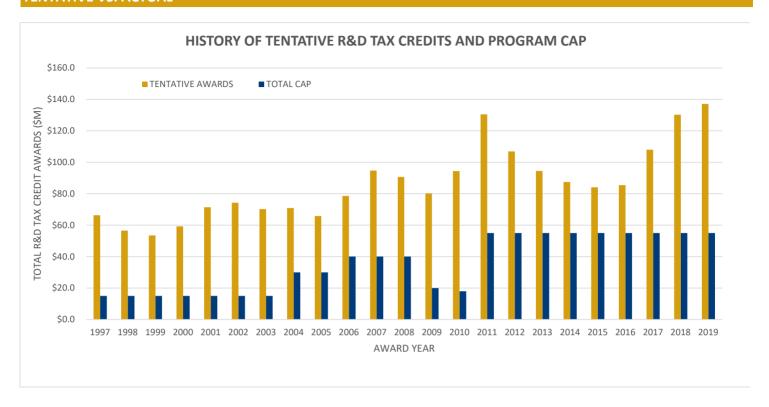

ACT 46 - 2003

This act allowed R&D tax credit recipients to apply to the Department of Community and Economic Development (DCED) to sell or assign an R&D tax credit if there has been no claim for allowance filed within one year from the date that the Department approved the credit. The purchaser or assignee must use the newly obtained R&D tax credit in the taxable year in which the purchase or assignment of the credit is made. The purchased or assigned R&D credit cannot be used to offset more than 75% of a tax liability for a taxable year. The purchased or assigned credit cannot be carried over, carried back, resold, or refunded. The provision to sell or assign unused R&D tax credits applies to credits awarded in December 2003 and forward, but the initial sale or assignment could not take place until at least December 2004.

Additionally, this act mandated that the Department report to the General Assembly the names of all taxpayers awarded R&D tax credits in each year starting in 2004. Appendix A at the end of this report lists the name of each taxpayer receiving the R&D tax credit from the Department in December 2017, 2018, and 2019, along with the amount of credit received and utilized.

- **ACT 48 2009**
- This act removed the one year holding period established by Act 46 of 2003. Credits awarded in 2009 and later can be sold immediately.
- **ACT 85 2012**
- This act repealed the sunset date for the R&D tax credit in Section 1712-B of the law, but left the reference to the sunset date in Section 1707-B unchanged.
- **ACT 85 2016**
- This act repealed the reference to the sunset date in Section 1707-B.
- **ACT 43 2017**
- This act authorizes the Department of Revenue to perform tax clearances on taxpayers prior to the awarding of a tax credit to ensure all taxpayers are compliant with tax payment and filing obligations.

TENTATIVE VS. ACTUAL

Without caps on annual awards, \$1,991.4 million in R&D tax credits would have been awarded from the tax credit's inception through December 2019. Actual R&D tax credit awards have totaled \$818.0 million over that timeframe. Over the years, the varying annual credit caps have reduced the amount of R&D tax credit that would have been awarded to 41.1% of what was requested.

Since inception, "small" businesses have received \$134.5 million of the \$173.6 million in tentative R&D tax credits (77.5%). In 9 years of the credit's 23 years of existence, "small" businesses have requested more than the small business set aside including each of the past five years.

Since inception, "not small" businesses have received \$683.5 million of the \$1,817.8 million in tentative R&D tax credits (37.6%).

The table below shows tentative vs. actual credits for December 2019 awards (\$K):

| ACTUAL CREDIT RANGE | APPLICANTS | TENTATIVE | ACTUAL | % OF ACTUAL | % OF TENTATIVE |
|----------------------------|-------------------|-------------|------------|-------------|----------------|
| \$0 - \$4.9 | 262 | \$1,417.0 | \$634.9 | 1.2% | 44.8% |
| \$5.0 - \$19.9 | 365 | \$8,512.9 | \$3,923.3 | 7.1% | 46.1% |
| \$20.0 - \$49.9 | 204 | \$14,031.6 | \$6,743.2 | 12.3% | 48.1% |
| \$50.0 - \$99.9 | 87 | \$13,365.0 | \$5,892.2 | 10.7% | 44.1% |
| \$100.0 - \$499.9 | 64 | \$24,734.6 | \$10,656.5 | 19.4% | 43.1% |
| \$500.0 - \$999.9 | 6 | \$11,651.9 | \$4,216.9 | 7.7% | 36.2% |
| \$1,000.0 OR GREATER | 7 | \$63,367.2 | \$22,932.9 | 41.7% | 36.2% |
| | 995 | \$137,080.2 | \$55,000.0 | 100.0% | 40.1% |

Overall, taxpayers received 40.1% of the tentative R&D tax credit awards in December 2019.

The vast majority of taxpayers (98.7%) received less than \$500,000 in R&D tax credits in December 2019. These business received 50.6% of total R&D tax credit awards. Taxpayers receiving \$500,000 or more in R&D credits in December 2019 (1.3% of total applicants) received 49.4% of total R&D awards.

2019 RECIPIENTS

R&D CREDITS - DECEMBER 2019 (\$M)

| BUSINESS TYPE SMALL NOT SMALL TOTAL | APPLICANTS 419 576 995 | % OF APPLICANTS 42.1% 57.9% 100.0% | \$15.5 \$121.6 \$137.1 | \$11.0 \$44.0 \$55.0 | % OF ACTUAL 20.0% 80.0% 100.0% |
|--|--------------------------------------|---|---|--|---|
| BUSINESS TYPE MANUFACTURING INFORMATION SERVICES MISCELLANEOUS TOTAL | APPLICANTS 423 41 288 243 995 | % OF APPLICANTS 42.5% 4.1% 28.9% 24.4% 100.0% | \$20.9 \$10.7 \$14.9 \$8.5 \$55.0 | % OF ACTUAL 38.0% 19.5% 27.1% 15.4% 100.0% | |

| | 2017 CNIT |
|----------------------|-----------------|
| BUSINESS TYPE | LIABILITY (\$M) |
| MANUFACTURING | \$11.7 |
| INFORMATION | \$34.6 |
| SERVICES | \$48.6 |
| MISCELLANEOUS | \$14.5 |
| TOTAL | \$109.4 |

"Small" taxpayers received \$11.0 million in R&D tax credits in December 2019. This is the fifth straight year that "small" taxpayers have requested more than the "small" business set-aside (\$11.0 million). "Small" taxpayers received 71.0% of their tentative award amount.

Manufacturers received \$20.9 million of the total \$55.0 million awarded in December 2019. The largest group of recipients in the manufacturing sector were the 12 pharmaceutical and medicine manufacturers, which received \$9.4 million.

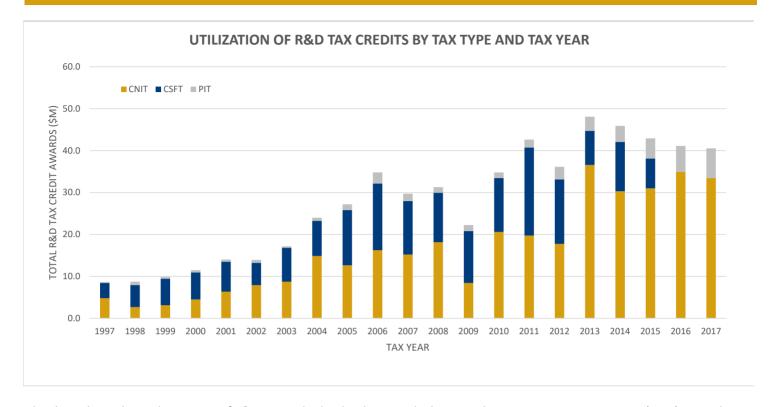

The Information sector received the largest amount of R&D tax credit per recipient - more than \$261,000.

In the Service sector, the largest group of recipients were the 91 computer system designers, which received \$7.4 million.

In order to provide an idea of the relative value of the R&D tax credit to recipients, an analysis was conducted comparing the R&D tax credit awarded in 2019 to the total tax year 2017 self-assessed CNIT, the latest year for which reports are available for all taxpayers. Of the 995 taxpayers receiving the R&D tax credit in 2019 that are subject to the CNIT, their total self-assessed 2017 tax year CNIT totaled \$109.4 million.

[&]quot;Not small" taxpayers received 36.2% of their tentative award amount.

UTILIZATION

The chart above shows the amount of R&D tax credit that has been applied against the Corporate Net Income Tax (CNIT), Capital Stock/Foreign Franchise Tax (CSFT), and the Personal Income Tax (PIT). The figures shown are from taxpayers that have directly received the tax credit from the Department, as well as those taxpayers that have purchased unused R&D tax credits. For PIT, individuals who received the credit directly are included, as are any individual owners of S corporations or limited liability companies (LLCs) who received the pass-through benefit. All credit amounts are as of February 2020.

R&D tax credit utilizations by tax type for tax years 1997-2017 (\$M):

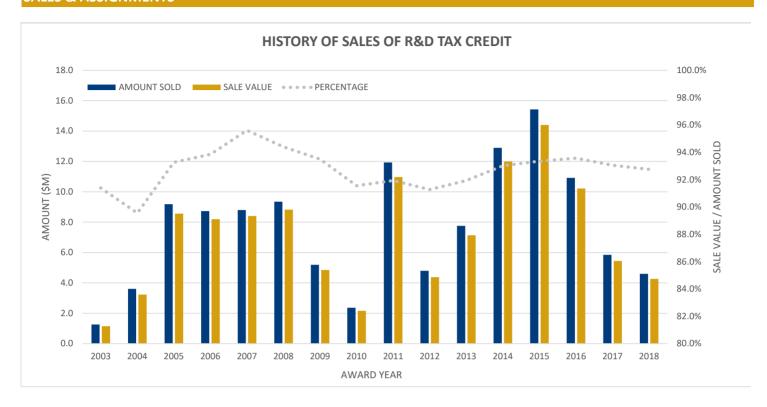

| TAX TYPE | UTILIZATION | SHARE OF UTILIZATION |
|----------|-------------|----------------------|
| CNIT | 348.0 | 59.5% |
| CSFT | 193.0 | 33.0% |
| PIT | 44.2 | 7.6% |
| | 585.3 | 100.0% |

Utilizations of \$585.3M represents 82.7% of the total amount awarded between 1997 and 2017.

In the chart above, utilizations of the R&D tax credit against CSFT stop after tax year 2015 because CSFT was repealed for tax year 2016.

Also, it is important to note that the amount of tax credit applied to a particular taxable year can vary over time as a taxpayer's taxable year liability may change due to assessment or the application of other credits.

SALES & ASSIGNMENTS

As noted on the Legislative Changes page, Act 46 of 2003 permits taxpayers with unused R&D tax credits to sell them for cash to other taxpayers who can use them. The earliest that unused R&D tax credits could be sold was December 2004, for credits awarded by the Department in December 2003. Taxpayers can only sell unused amounts of tax credits that exceed any collectible tax liability against which the credit may be offset. S Corporations may not apply to sell or assign any credit that has been passed-through to its shareholders. In order to sell an unused credit, the taxpayer must file an application with DCED. The application identifies the seller and the R&D tax credit that it intends to sell, along with the buyer and the amount for which the credit is being sold or assigned.

The buyer of the unused R&D tax credit can use it to offset up to 75% of a qualified tax liability. The buyer cannot carry forward, carry back, get a refund, or reassign the purchased credit. Further, the buyer must use the purchased tax credit against a qualified tax liability in the taxable year in which it was transferred. Lastly, the buyer must identify to the Department the taxpayer from which they bought the unused tax R&D tax credit.

As of February 2020, \$122.6 million of the \$673.0 million in R&D tax credits awarded between 2003 and 2018 have been sold (18.2%). Taxpayers purchasing the tax credits paid \$114.2 million (93.1% of the value of the credits).

The chart above shows the value of the tax credits sold and the sales price for each award year between 2003 and 2018. The dotted line shows the amount paid for the tax credits divided by the value of the tax credit.

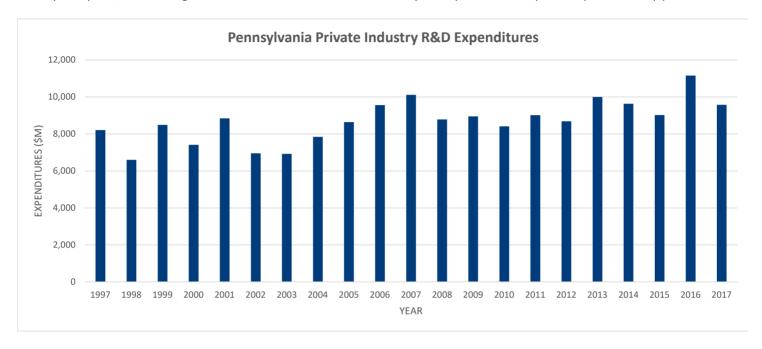

STATE COMPARISONS

A majority of states have sought to capture the potential benefits of encouraging R&D within their state by enacting an R&D tax credit. There are 41 states, including Pennsylvania, that have provided for R&D tax credits in recent law. Credits are usually applied against either corporate net income (CNIT) tax or the personal income tax (PIT) liabilities, depending on the existing business tax structure of the state. The table below details the R&D tax credit structure of bordering states.

| STATE | TAX TYPES | CREDIT CAP |
|---------------|---------------------------------------|--|
| DELAWARE | CNIT & PIT | None |
| MARYLAND | CNIT & PIT | Total credits for both the Basic R&D tax credit and the Growth R&D tax credit cannot exceed \$12 million per year. |
| NEW JERSEY | CNIT | None |
| NEW YORK | CNIT & PIT | Excelsior R&D credits are limited to Excelsior Jobs Program participants and contain multiple credit components. Credit components in the aggregate shall not exceed \$183 million in TY 2020; caps in other tax years vary. |
| NEW YORK | CNII & PII | The Life Sciences R&D tax credit is capped at \$10 million per year. If the tax credits applied for exceed the cap, then the excess credits will be treated as having been applied for in the subsequent year. |
| оню | Commercial Activities Tax & PIT | None |
| WEST VIRGINIA | No Credit | N/A |

EFFECTIVENESS OF THE PENNSYLVANIA TAX CREDIT PROGRAM

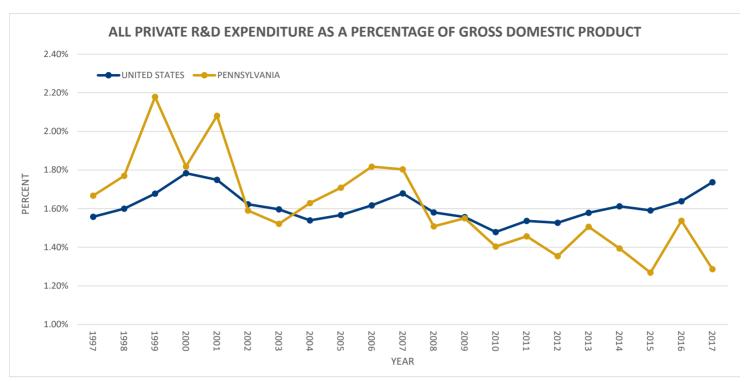

The timeframe for R&D projects in the private sector can be lengthy. It is not uncommon for businesses to have R&D projects extend for 10 to 15 years or more. The Pennsylvania R&D tax credit has thus far had a potential impact on increasing research expenses in twenty-two years, 1997 through 2018. The chart below illustrates Pennsylvania private industry R&D expenditures by year.

While there is not a study measuring the effects of the R&D tax credit in Pennsylvania, a study released by the Milken Institute in December 2015 could be used to gauge the effectiveness of the R&D tax credit programs in a general sense. The study measures the impact of a proposal to double the existing rate of calculation in the California R&D tax credit from 15 percent to 30 percent of the increase in California R&D expenses over the base year. The report concluded that, in the tenth year after adopting the change, the \$700 million in additional R&D credits would stimulate between \$4.5 billion and \$6.8 billion in additional R&D activity in California, with a multiplier between 6.4 and 9.7. Further, the report found that that, in the tenth year after adopting the change, the gross domestic product (GDP) of California would be higher by between \$7.7 billion and \$10.5 billion, or a maximum of about 0.4% expansion.

Pennsylvania has a very different mix of economic activity from California, and it is unclear that the same conclusions could be drawn relative to the Commonwealth. In fact, in 2017 California was home to \$120.1 billion in private R&D spending, over 1/3 of the US total, and issued between \$1.5 and \$1.6 billion in R&D tax credits. Given that massive difference in R&D infrastructure, it is likely that Pennsylvania is affected differently by research and development incentives in the tax code.

EFFECTIVENESS OF THE PENNSYLVANIA TAX CREDIT PROGRAM (CONTINUED)

Source: 1997 through 2016 from National Science Foundation, 2017 calculated from NSF and Bureau of Economic Analysis data

As shown in the chart above, the pattern of total R&D expenditure as a percentage of GDP does not conform to the one seen in recent years on the national level. The drop in GDP during the recession does initially inflate the R&D share of the US economy, but once the recovery began in 2010, the R&D share is largely flat and resumes growth after 2015. By contrast the R&D share of the Pennsylvania economy is much more volatile, particularly from 2013 onward. An analysis of this deviation would require more data points, but the expansion of the natural gas industry and related manufacturing in Pennsylvania specifically may be related.

ADMINISTRATION AND EVALUATION

In order to fairly and equitably award credits to businesses within the Commonwealth of Pennsylvania, the Department has taken steps to establish an on-line application process that creates transparency in the application itself, assists with the evaluation of those applicants, and provides insight into the economic benefits of the R&D Credits awarded to those businesses.

Beginning with the 2018 R&D Application, the department created the online application system with each applicant creating a unique User ID and Password. Implementing the R&D Credit online application provided the opportunity to add valuable business rules. These rules can require data entry in certain key fields that if in the past left blank would have resulted in a denial or mail correspondence. The rules also create the opportunity to present only relevant fields to the applicant based on the entry of information, such as after selecting an entity type. Once completed, the applicant receives a unique confirmation number to reference when accessing the application in the future and to identify related correspondence.

The electronic application process provided a mechanism to create a workflow that tracked the status of the application for the taxpayer, indicating whether the application was received, pending, reviewed, approved, or rejected. Once verification of the initial application was complete, the approval process continued confirming that the applicant and/or 20 percent owner was in compliance filing and paying all appropriate tax returns.

As the Department is tasked with the integrity of the application process and credits awarded, the department moved toward a system designed to further substantiate the applicant's PA-Qualified Expenditures, Total Expenditures, Direct Wages, and 3rd Party/Subcontracted Labor. Data analytics were developed and incorporated to group selected applicants based on information from the application and applicant history. Selected applicants were asked to provide records to substantiate areas including that wages were incurred for an employee conducting qualified research and development activities in Pennsylvania.

This review process provides greater assurance that the claimed research and development activities met the statutory qualifications for a tax credit. For the 2019 application process, the department's detailed review of supporting records resulted in an additional \$6.2 million of R&D credits redistributed to other qualified applicants.

Act 43-2017 authorizes the Department of Revenue to perform tax clearances on taxpayers prior to the awarding of a tax credit to ensure all taxpayers are compliant with tax payment and filing obligations.

The two issues for determination are entity tax compliance and ownership tax compliance for entity owners with a 20% or greater share of ownership.

For the R&D tax credit, 10.6% of applicants were deemed noncompliant or ineligible for the credit. Approximately \$1.2 million in liabilities were cleared through either payments, error resolution, credits, or account adjustments. Additionally, over 400 unfiled returns were filed by taxpayers when prompted by Revenue during the compliance process.

RECOMMENDATIONS FOR THE PENNSYLVANIA TAX CREDIT PROGRAM

The Department recommends that the General Assembly consider the following changes:

Move the due date for the application to December 1 to allow the taxpayer to have completed both state and federal returns.

Move the period in which sales and assignments may be processed by the Department to June 1 following the immediate tax year in which the credit was awarded.

Authorize the Department to require a taxpayer to hire an independent auditor to prepare audited financial statements.

Provide the Department with the authority to audit a taxpayer, business firm, or other recipient of a tax credit, including the purchaser of a tax credit.

Allow the Department to recapture credits in applicable cases.

Standardize due process rights to taxpayers denied tax credits for noncompliance or were subject to recapture within six months of the award date.

Require the brokers to be registered with the Department.

Require taxpayers to file federal Form 6765 with the PA R&D tax credit application to allow the Department to perform reconciliations on eligible expenditures and disallow submission of a pro forma statement only.

Require taxpayers to claim a federal income tax credit to qualify for the state credit.
