

Dyed Diesel Fuel Inspection Notice

Section 9019(c) of the Pennsylvania Liquid Fuels and Fuels Tax Act [75PA.C.S. § 9019(c)] prohibits the use of dyed diesel fuel or dyed kerosene on Pennsylvania highways unless federal law or regulation specifically provides for such use.

Section 9019 and regulations thereunder allow authorized state officials to physically inspect, examine and search any of the following:

- containers that may be used for the production, storage, transportation or use of fuel, fuel dyes or fuel markers;
- equipment used for fuel, fuel dyes or fuel markers; or
- books and records pertaining to liquid fuel and fuels tax.

Authorized officials may detain any vehicle, vessel or railroad tank car on a customer's site to inspect its fuel or storage tanks, and they may take and keep reasonable sized samples of fuel for such purposes.

Any person who refuses to allow an inspection commits a summary offense and may, upon conviction, be sentenced to pay a fine between \$1,000 nor \$2,000 for each refusal. This fine is in addition to any other penalty or tax that may be imposed.

Please visit the Department of Revenue's website at www.revenue.pa.gov for additional information concerning dyed diesel fuel.
